

# Save our rail services!

Planned rail cutbacks at Denmark Hill will mean longer journeys for patients and staff.

The South London Line is the loop line that runs all day, every day from Victoria to London Bridge via Denmark Hill.

The proposed change will reduce vital rail services to major London terminals from the following stations:

By 2012, Denmark Hill will have no direct trains to London Bridge and only two trains an hour to Victoria.

We think this is unacceptable. We are calling on all local NHS staff, NHS patients and local residents who use the South London Line, to help save this vital service.
